

CONSTRUCTION NOTICE

North Maple Regional Park

The next stage of park development is in motion!

Construction includes grading, underground services (water, stormwater, sanitary, gas, electrical and telecommunication) and the environmental restoration of 52 hectares (130 acres) of the park to prepare for future development of new recreational facilities.

Removal and replanting of grass, trees and shrubs is part of the site restoration process being undertaken in co-ordination with the Toronto and Region Conservation Authority.

Impact on park users

Construction will take place in stages and different areas of the park will be closed to the public with on-site signage and fencing during each stage. The existing parking lot, artificial turf fields and pavilion will remain open throughout the construction.

Construction timelines

START: winter 2022

COMPLETION: fall 2023
