

## Active Transportation Facilities: New In-Boulevard Cycle Track

### PLANNED PROJECT WORK

The City of Vaughan will be undertaking the detailed design work for a new asphalt in-boulevard cycle track on both sides of Martin Grove Road, from Steeles Avenue to Rainbow Creek Park Trail. The proposed cycle track will further improve the overall Active Transportation network within the city.

Construction is expected to begin in spring of 2022.

### PRE-CONSTRUCTION FIELD WORK

Commencing December 2020, the City will be conducting investigation activities in the area which may include topographic and/or legal surveys, geotechnical boreholes and other field investigation works. All work is being carried out by the City's consultant, under the direction of the Infrastructure Delivery department.

To identify any conflicts, the various underground utilities (i.e. gas, telecommunication, and hydro) will be identified in advance by different coloured paint markings.

### TRAFFIC IMPACT

All roads will remain open to traffic during the field investigation work.

### MORE DETAILS TO FOLLOW

Newsletter No. 2 will be issued prior to construction, which will provide further details including approximate construction start and end dates.

Thank you in advance for your cooperation. We look forward to completing these important infrastructure upgrades in your area. For more information, please contact the Project Lead.

### LOCATION:

Martin Grove Road, from Steeles Avenue to Rainbow Creek Park Trail – both sides
