COMMUNICATION
CW (PH) - JAN 15/13
ITEM - 1

To Whom it may Concern,

We the residents of the area are directly affected with this proposed plan and would like to oppose any such effort by the city to approve such a risky facility near our residences. As a matter of fact, this gas bar is too close to the residential area, and our back yards are directly intersecting the land proposed. Moreover, i have 2 small kids, 1 and hlaf yr and 1 month old kid is it safe for them to grow up near gas station 24/7. I beg u please stop this project for sake of my kids.

as we canadain we bring safety 1st in any case.

Is It Safe to Live Near a Gas Station? The health concerns for you or your family with living by the pump
