Hi there

I am a resident that lives on Keele Street. I am wondering if and how we could receive a copy of the report from urban strategies.

I have some concerns regarding traffic control as traffic today is horrendous no matter where you go. This raises concerns in case of emergencies and we know every minute counts in a life threatening emergency. In regards to the trees how are they protecting the existing trees.

We as residents are concerned for our safety and privacy.

All in all i would like to see homes that compliment the existing area. I am for development but i would like to see single family homes only. Not townhouses or 3 storey buildings! !!

Thank you

Mr and Mrs Oliva
