## DEVELOPMENT CHARGE INFORMATION PAMPHLET

November 8, 2023

This overview of the City of Vaughan’s development charges is intended to be used as a guide. Applicants should review the by-laws and the *Development Charge Act, 1997* and consult with Financial Planning and Development Finance staff at the City of Vaughan. If there is a discrepancy between this information and the by-laws, the by-laws prevail.

### What are development charges?

Development charges (DCs) are fees paid by developers and homeowners. DCs assist in financing capital costs associated with growth and development within the City of Vaughan. These funds are used solely for the purpose for which they are collected.

### Is my project subject to DCs?

You may be required to pay development charges, if you are:

- Constructing a new building
- Making an addition or alteration to an existing building that increases the number of residential units or the non-residential gross floor area
- Redeveloping a property or making interior alterations that result in a change of use to all or part of a building

Every development application is evaluated to determine to what extent DCs are applicable.

### What types of services do City-wide DCs pay for?

DCs help fund the increased need for the following services:

- Engineering services
- Community services
- Fire and rescue services
- Public works
- Library services
- General government

### What are Area Specific DCs?

For more localized services provided by the City of Vaughan, an area-specific approach is used. Area specific DCs are calculated for water, wastewater and stormwater services.

### Who do I call for more information?

**City of Vaughan** West of Weston Road – 905-832-2281, extension 8703  
East of Weston Road – 905-832-2281, extension 8775

**Region of York** (1) 877-464-9675, extension 71696

**York Catholic District School Board** 416-221-5051, extension 12374

### When are the DCs collected?

Unless otherwise provided by agreement, a DC is calculated and payable on the date a building permit is issued for development on land to which a DC applies. For most residential development pursuant to a plan of subdivision, the engineering service component of the DC and area specific DC (if applicable) are due upon entering into a subdivision agreement, and the balance of the DC is due when the building permit is issued.

### Adjustments

DCs will be adjusted annually, except for the Edgeley Pond and Black Creek Channel Works and VMC West Interchange Sanitary Sewer Improvement Works ASDCs which are indexed semi-annually, without amendment to the current by-laws, as of the first day of January and/or the first day of July in each year. This is in accordance with the most recent change in Statistics Canada Quarterly, Non-Residential Construction Price Statistics.

**Treasurer's statement**

An annual statement identifying opening and closing balances of the reserves funds and the yearly transactions relating to the funds are available for review in the Office of the City Clerk during regular business hours.
